ELISABETH ENGERING

STUDENT APPLIED DATA SCIENCE & ARTIFICIAL INTELLIGENCE (AI)

PROFILE

A 20 years young enthusiastic and eager to learn Data Science & Artificial Intelligence (AI) student, that's me!

My perseverance and communication skills have helped me to get the best results! I want to further develop my experience and knowledge in the data environment and learn how to use it within different parts of an organization.

My personal goal is to be able to support an organization to enable their digital transformation journey by maximizing the value of their data and gaining insights. My interest in learning new things is great, so I quickly pick up new information, always ready for a new adventure!
